Journal of Gastroenterology and Hepatology (1998) **13**, 1300–1314

Subject Index to Volume 13

Supplement Abbreviations
ADW Proceedings of the Alimentary Diseases Week, Hong Kong, 1997
PMI Parenchymal and Mesenchymal Cell Interactions in the Liver, Tokyo, 1997

Abstracts
A1 Asian Pacific Association for the Study of the Liver
A81 Second Western Pacific *Helicobacter* Congress

α-fetoprotein mRNA
  case of well-differentiated minute HCC with extrahepatic metastasis 892
  non-specificity in peripheral blood in detecting early spread of HCC 885
α-glucosidase inhibitor; long-term effect on late dumping syndrome 1201
α-smooth muscle actin; relationship of angiographic finding with neovascular structure in HCC 1266
β-actin; expression of cellular adhesion regulatory molecules in HCC 878
N-acetylglucosaminyltransferase III; activity in HCC 610

acid regurgitation; gastro-oesophageal reflux in pregnancy 1020
acquired immunodeficiency syndrome; PEG feeding in 371
activating protein-1; signal transduction during liver regeneration (PMI) S93
acute cholecystitis (Hepatobiliary and Pancreatic Images) 832, 840, 1286, 1288
acute-phase response; regulation of UGT during 88
adaptation; of aged gastric mucosa (ADW) S204
adenocarcinoma
  metastatic; power Doppler imaging of hepatic tumours 1152
  oesophageal; rising incidence in Australian men of 356
adenomatous polyposis gene; mutation in the first reported Australian case of Turcot's syndrome (Case Report) 401
adenomyomatosis; of the gall-bladder and its association with APBD 175
adenovirus, recombinant; *Fas*-mediated apoptosis is involved in the elimination of gene-transduced hepatocytes with (PMI) S113
adjuvant therapy; new treatment for HCC (ADW) S311
alanine aminotransferase
  deficiency detected in a patient with chronic hepatitis C (Case Report) 480
  relationship with liver histologies and virological status in patients with chronic hepatitis C in Taiwan 685
alcohol-induced
  gastric damage; effects of cigarette smoke on P selectin expression and inflammation responses in (ADW) S199
  liver injury; role of gut-derived bacterial toxins and free radicals in (PMI) S39
alcohol injury; central and peripheral vagal mechanisms in gastric protection against (ADW) S214
alcohol; how much does it contribute to the variability of hepatic fibrosis in chronic hepatitis C? 419
alcoholic pancreatitis; cystic fibrosis genotypes and 496
alkaline phosphatase gene; regulation of expression in human hepatoma cell lines by bile acids 643
amitriptyline; symptom relief for IBS 738
amoxycillin
  and omeprazole with and without metronidazole in the eradication of *H. pylori* 301
  factors influencing *H. pylori* eradication with 2 week combination therapy of lansoprazole and 725
ampulla of Vater
  cancer of (Images in Gastroenterology) 115
  impacted stones in (Images in Gastroenterology) 657
AMT *see* adenomyomatosis
ANCA *see* anti-neutrophil cytoplasmic antibody
angiography; relationship with neovascular structure detected by immunohistochemical staining of α-smooth muscle actin in 1266
anions, organic; effect of colchicine and phenothiazine on the biliary excretion of 427
announcement; Eliminating redundant publications (Editorial) 861
anomalous pancreatobiliary ductal union; association between AMT of the gall-bladder and 175
anorectal manometry; clinical significance of anismus in encopresis 955
anorectum; recto-anal inhibitory reflex: Abnormal response in diabetics suggests intrinsic neuroenteropathy 1107
antibiotic; -associated haemorrhagic colitis (Case Report) 1115
antibody
  against a glycoprotein of nuclear pore complex as a marker in PBC 257
  monoclonal; to HCC 137
anti-centromere antibody; immunological features of patients with PBC overlapping systemic sclerosis 897
anti-histocompatibility antigen monoclonal antibody class 1; role in elimination of HCC cells 29
anti-histone antibodies; characterization of type 1 autoimmune hepatitis 483
anti-neutrophil cytoplasmic antibody
  in patients with IBD 950
  significance in IBD (Editorial) 863
antipyrine; clearance in chronic and neoplastic liver disease 460
APBD *see* anomalous pancreatobiliary ductal union
APC *see* adenomatous polyposis gene

apolipoprotein
A-IV; regulation of synthesis (ADW) S270
comparative potency of cholesterol crystallization-effector proteins in supersaturated model bile systems 1161
apoptosis
comparative study of NOR, PCNA and EGF receptor staining in colon tumours 794
effect of PGE_1 in rats on 197
of hepatocytes and hepatic expression of TGF-β_1 mRNA during involution of hyperplastic rat liver induced by HGF 786
aspirin
gastric adaptation to (ADW) S193
spasmolytic polypeptide protects against gastric injury induced by 363
assay; development of a new NO-selective electrode for *in situ* determination of NO levels in UC 391
auto-antibodies; clinical significance in chronic hepatitis C 475
autoimmune disease; antinuclear and anti-histone auto-antibodies in (Editorial) 453
autonomic nervous activity; during gastrointestinal endoscopy, analysis of blood pressure variability by tonometry 816

Barrett's oesophagus
role of growth factors in mucosal healing (ADW) S156
surveillance of (Review Article) 990
bicarbonate; gastroduodenal secretion in rats (ADW) S221
bile acid; comparative potency of cholesterol crystallization-effector proteins in supersaturated 1161
review of UDCA as a medicant (Review Article) 659
influences hepatic chemiluminescence in rats 81
inhibition of TNFα-induced IL-8 production in human colon epithelial cells 1212
regulation of expression of alkaline phosphatase gene in human hepatoma cell lines by 643
bile duct
cancer; intraductal ultrasonography for the diagnosis of proximal invasion in extrahepatic 715
cysts; familial occurrence of (Case Report) 316
disease; new approach in diagnosis with US and MRI (ADW) S278
extrahepatic; mucobilia, clinical spectrum, diagnosis and treatment (Review Article) 1084
biliary
ascariasis; complicating endoscopic sphincterotomy for choledocholithiasis 1072
bilirubin; profile in patients with persistent hyperbilirubinaemia after resection: HPLC analysis 709
disease; mechanism of postoperative cholestasis (Editorial) Corrig. 1176 673
ERCP in paediatric patients with biliary disorders 598
excretion
changes in rats with cholestasis of mechanisms of 186
effect of colchicine and phenothiazine on 427
papillomatosis; mucobilia, clinical spectrum, diagnosis and treatment (Review Article) 1084
stricture, benign; endoscopic management of (Review) 116
bilirubin
metabolism; new insights into the mechanism of postoperative cholestasis (Editorial) Corrig. 1176 673
subfractions; altered biliary bilirubin profile in patients with hyperbilirubinaemia after hepatic resection 709
bleeding, variceal haemorrhage; update on treatment (ADW) S161
blood flow; in gall-bladder wall determined by colour Doppler-guided spectral analysis 181
blood glucose; gastrointestinal motor function in diabetes mellitus, relationship to (ADW) S239
blood pressure, variability; analysis of autonomic nervous activity during GI endoscopy by 816
blood transfusion; current risks of viral hepatitis from (Review) 443
Book Review 112, 450
bowel anastomosis; PCI associated with (Case Report) 534

calcification; hepatobiliary tuberculosis (Review Article) 833
calcium homeostasis; hepatic and renal expression of senescence marker protein-30 and its biological significance (PMI) S124
calcium-binding protein; role of regucalcin in regenerating rat liver (PMI) S106
camostat mesilate; attenuates gastric erosions and microcirculatory disturbances by a protease inhibitor after thermal injury in rats 104
cAMP; effect on DNA synthesis in rat hepatocytes at G1 phase 651
cancer prevention; uncertain benefits of treatment of *H. pylori* infection 1091
cancer; of the ampulla of Vater (Images in Gastroenterology) 115
Candida oesophagitis; (Images in Gastroenterology) 831
capsaicin; protective action on haemorrhagic shock-induced gastric mucosal injury in the rat 1007
carbon dioxide; enhanced ultrasonography in the evaluation of HCC 41
Caroli's disease; (Hepatobiliary and Pancreatic Images) 658, 665
CC *see* cholangiocarcinoma
CD28, pathway; contribution of *Fas-Fas* ligand interaction to allogeneic hepatocyte rejection (PMI) S119
cell cycle
effect of transient cAMP elevation on DNA synthesis in rat hepatocytes at G1 phase 651
regulation of G_1 cyclin-dependent kinase in liver regeneration (PMI) S101
cell proliferation
kinetics during healing of duodenal ulcer 376
role of calcium-binding protein regucalcin (PMI) S106
cellular adhesion regulatory molecule; in HCC 878
cerebral changes; in hepatic encephalopathy (Review Article) 752
CH-100; Chinese herbal medicine in the treatment of chronic hepatitis C 244
chemiluminescence; in rats influenced by bile acids 81
chemotaxis; effect of obstructive jaundice on 405
chemotherapy; influence on gastric cancer (ADW) S172
children
chronic hepatitis virus infection in (Review) 541
HGV infection in multiply infused children with thalassaemia 253

Chinese medicine: the liver in (Review) 437
cholangiocarcinoma: combined with HCC 34
cholangitis
  biliary stenting for the management of common bile duct stones 594
  primary sclerosing: three paediatric cases treated with UDCA and sulphasalazine (Case Report) 825
choledochocele: familial case of (Editorial) 237
choledocholithiasis
  biliary ascariasis complicating endoscopic sphincterotomy 1072
  biliary stenting for the management of common bile duct stones 594
  endoscopic management of (Review Article) 1180
cholestasis
  changes in biliary excretory mechanisms in rats with 186
  new insights into the mechanism of postoperative (Editorial) Corrig. 1176 673
cholesterol
  cholecystolithiasis: pathogenesis and treatment of gallstone disease (ADW) S275
  crystallization-effector proteins in supersaturated model bile systems: Comparative potency of 1161
cigarette smoke: effects on P selectin expression and inflammation responses in ethanol-induced gastric mucosal damage (ADW) S199
CINC *see* cytokine-induced neutrophil chemoattractant
cirrhosis
  advanced (Hepatobiliary and Pancreatic Images) 970, 972
  biliary: possibly related to congenital hepatic fibrosis (Case Report) 720
  effects of eating on plasma hyaluronan in patients with 1218
  interferon γ
    on intrahepatic haemodynamics 1058 (Editorial) 975
  low-dose recombinant interferon therapy in anti-HBe-positive chronic hepatitis B in Asian Indians 675
  portal hypertensive gastropathy (Review Article) 865
  tissue inhibitors of metalloproteinases, hepatic stellate cells and liver fibrosis (PMI) S32
  treatment with EGF and insulin accelerates liver DNA synthesis after partial hepatectomy 1259
  vascular responses to the L-type calcium channel activator, Bay K 8644, in rats with 1254
clarithromycin
  effect on healing in *H. pylori*-infected rats (ADW) S185
  in triple therapy for the eradication of *H. pylori* 288
  resistant *H. pylori* in dyspeptic patients 1044
CLO test *see* urea breath test
clonal growth: and maturation of small hepatocytes (PMI) S70
colchicine: effect on biliary excretion of organic anions of phenothiazine and 427
colitis
  effects of R- and S-enantiomers of chiral NSAID in (ADW) S266
  haemorrhagic: antibiotic-associated (Case Report) 1115
  ulcerative: IBD in Saudi Arabia: Presentation and initial management 1119
collagen
  gel: morphological comparison and functional reconstitution of rat hepatic parenchymal cells on (PMI) S55
  metabolism: in hepatic stellate cells, molecular mechanisms (PMI) S19
collagenase: tissue inhibitors of metalloproteinases, hepatic stellate cells and liver fibrosis (PMI) S32
colon tumour: comparative study of NOR, PCNA and EGF receptor staining in 794
colorectal cancer
  screening 528, S252
  study of laboratory based FOBT 396
  tamoxifen inhibits liver metastases of 521
colorectal tumour: sulindac inhibits growth of 1195
community based programme: uncertain benefits of treatment of *H. pylori* infection to reduce gastric cancer incidence 1091
computer morphometry: for the quantitative measurement of liver fibrosis 75
concanavalin A
  comparative potency of cholesterol crystallization-effector proteins in supersaturated model bile systems 1161
  non-reactive species: *N*-acetylglucosaminyltransferase III activity in HCC 610
Corrigendum: Ichijo T, Matsumoto A, Kobayashi M, Furihata K, Tanaka E. Quantitative measurement of HCV-RNA in the serum: A comparison of three assays based on different principles. *J. Gastroenterol. Hepatol.* 1997; **12**: 500–6. 551
cost-effectiveness: of eradication of *H. pylori* for the treatment of duodenal ulcer 280
Crohn's disease
  atypical, cytoplasmic and perinuclear anti-neutrophil cytoplasmic antibodies in patients with IBD 950
  IBD in Saudi Arabia: Presentation and initial management 1119
  modulation of intestinal immune system by dietary fat intake: Relevance to (Review Article) 1183
  quantitative immunohistochemical evaluation of inflammatory cells and affected and unaffected sites of IBD 801
  significance of pANCA in IBD (Editorial) 863
Cronkhite–Canada syndrome (Images in Gastroenterology) 1173
cryoglobulinaemia: among maintenance haemodialysis patients and its relationship with hepatitis C infection 248
culture
  and transfection of primary hepatocytes and hepatocyte-derived cell lines (Special Article) 855
  of sinusoidal endothelial cells from rat liver cells (Special Article) 851
C-X-C chemokine: enhanced levels in *H. pylori*-associated gastric disease of 516
cyclin: liver regeneration, liver cancers and (PMI) S96
cyclin-dependent kinase: regulation in liver regeneration (PMI) S101
cyclo-oxygenase: NSAID that cause relatively little gastric damage (ADW) S190
cystic fibrosis: genotypes and alcoholic pancreatitis 496
cystic neoplasm of the pancreas (Hepatobiliary and Pancreatic Images) 1171, 1175

cystic teratoma (Hepatobiliary and Pancreatic Images) 540, 549
cystolic protein binding; geranylgeranylacetone stimulates hexosamine production in rat gastric mucosal cell line by specific 809
cytochrome P450; influence of diet, vitamins and chemotherapeutic agents on gastrointestinal cancer (ADW) S172
cytokine-induced neutrophil chemoattractant; induction of production in rat liver by non-parenchymal cells 696
cytokines; as predictors of severity in acute pancreatitis (Editorial) 1177
cytotoxin-associated gene A, mouse model of gastric infection with *H. pylori* (ADW) S178

defaecation, obstructed; clinical significance of anismus in encopresis 955
dextran sodium sulphate; effects of the anti-ICAM-1 monoclonal antibody on colitis induced in rats by 945
diabetes mellitus
  gastrointestinal motor function in (ADW) S239
  RAIR suggests intrinsic neuroenteropathy in 1107
diet
  epidemiology of gastric cancer in relation to diet and *H. pylori* infection (ADW) S166
  influence on gastric cancer (ADW) S172
Dieulafoy's disease; treated by endoscopic haemostatic clipping (Case Report) Corrig. 860 320
differentiation
  and colonial growth of epithelial cells derived from abattoir adult porcine livers (PMI) S62
  of primary culture rat hepatocytes: dose-dependent biphasic effects of phenobarbital on growth and (PMI) S78
Doppler
  guided spectral analysis, colour; of gall-bladder wall blood flow 181
  imaging; of hepatic tumours: Differential diagnosis between HCC and metastatic adenocarcinoma 1152
DSS *see* dextran sodium sulphate
dual infection; biochemical and histological features of HGV infection 767
ductal plate, malformation; secondary biliary cirrhosis possibly related to congenital hepatic fibrosis (Case Report) 720
duodenal
  endoscopy; for diagnosis of cancer of the ampulla of Vater (Images in Gastroenterology) 115
  invasion; radiotherapy treatment for (Case Report) 1143
  ulcer
    prevalence differential north to south gradient in China 1050
    economic evaluation of *H. pylori* eradication for the treatment of 280
    flow cytometric analysis of cell proliferation kinetics during healing of 376
  melanosis and histology 13
  varix; successful obliteration using endoscopic ligation (Case Report) 591
duodenum
  cellular expression and regulation of liver transport and storage proteins in genetic haemochromatosis 624
  gastrointestinal manifestations of neurofibromatosis (Images in Gastroenterology) 743
  prostaglandin E-type receptor subtypes and gastroduodenal bicarbonate secretion in rats (ADW) S221
dynamin II; growth factor receptor-bound protein-2 in rat hepatocyte growth 635
dyspepsia
  functional; insights into pathophysiology (ADW) S246
  H. pylori colonization does not influence symptomatic response to prokinetic agents in patients with 500
  management guidelines for uninvestigated and functional dyspepsia in the Asia–Pacific region 335
  no correlation between *H. pylori* status and 505

EDTA, clearance; role of endogenous nitric oxide in ischaemia–reperfusion injury of rat gastric mucosa 997
EGF *see* epidermal growth factor
electrogastrography; improved system in measuring myoelectrical parameters 1027
endocrine cells; coexistence of proguanylin with somatostatin in the gastrointestinal tract 1225
endoscopic
  haemostatic clipping; as a treatment for Dieulafoy's disease (Case Report) Corrig. 860 320
  ligation; successful obliteration of a duodenal varix (Case Report) 591
  management; of choledocholithiasis (Review Article) 1180
  papillotomy; biliary stenting for the management of common bile duct stones 594
  retrograde cholangiopancreatography
    hepatobiliary tuberculosis (Review Article) 833
    impacted stones in the ampulla of Vater (Images in Gastroenterology) 657
    paediatric patients with biliary disorders 598
  variceal scleropathy; induced ulcer and factors determining ulcer healing 225
  ultrasonography
    diagnosis of proximal invasion in extrahepatic bile duct cancer 715
    hypo-echoic submucosal nodules: A sign of EBV-associated early gastric cancer, Corrig. 1080 585
endoscopy
  assessment of autonomic nervous activity during 816
  biliary ascariasis; complicating sphincterotomy for choledocholithiasis 1072
  diagnosis of lower intestinal lesions of leukaemia and malignant lymphoma 961
  in the treatment of benign biliary strictures (Review) 116
  surveillance of Barrett's oesophagus (Review Article) 990
  variceal haemorrhage: Update on treatment (ADW) S161
endosonography; successful obliteration of a duodenal varix using endoscopic ligation (Case Report) 591
endothelial
  cells, sinusoidal; culture from rat liver cells (Special Article) 851
  growth factor hepatocyte; associated with of hepatic sinusoidal endothelial cell regeneration (PMI) S1
endothelin; hepatic stellate cell contraction is inhibited by lipoprostaglandin E_1 *in vitro* (PMI) S14
endotoxin; role of gut-derived bacterial toxins and free

radicals in alcohol-induced liver injury (PMI) S39
epidemiology
gastric cancer–duodenal ulcer in China 1050
H. pylori prevalence in an Anglo-Celtic population in Melbourne 505
gastric cancer in relation to diet and *H. pylori* infection (ADW) S166
HCV in Australia 914
rising incidence of oesophageal adenocarcinoma in Australian men 356
tropical calcific pancreatitis (ADW) S284
epidermal growth factor
comparative study with NOR and PCNA staining in colon tumours 794
dual treatment with insulin accelerates liver DNA synthesis after partial hepatectomy 1259
receptor: -bound protein-2 in rat hepatocyte growth 635
role in oesophageal mucosal healing (ADW) S156
stimulated rabbit oesophageal mucosal growth: Role of polyamines (ADW) S149
epithelial cell
differentiation: and colonial growth of (PMI) S62
histamine H_2 receptor antagonist FRG-8813 prevents delay of wound repair induced by hydrogen peroxide in rabbit gastric (ADW) S209
migration: polyamines and cytoskeletal proteins in (ADW) S257
Epstein–Barr virus
cholestatic jaundice in the elderly induced by (Case Report) 821
hypo-echoic submucosal nodules: A sign of EBV-associated early gastric cancer. Corrig. 1080 585
ERCP *see* endoscopic retrograde cholangiopancreatography
Escherichia coli, infection: verocytotoxin producing (ADW) S289
ethinyloestradiol: changes in biliary excretory mechanisms in rats with cholestasis induced by 186
ethnicity: intestinal metaplasia subtypes and *H. pylori* infection: A comparison of ethnic groups in New Zealand 560
extracellular matrix: molecular mechanisms in the reversible regulation of morphology, proliferation and collagen metabolism in hepatic stellate cells in the 3-D structure of (PMI) S19

faecal occult blood testing
and screening for colorectal cancer 528
comparison of results from different laboratories 396
familial adenomatous polyposis (Images in Gastroenterology) 969
Fas
-*Fas* ligand: contribution to allogeneic hepatocyte rejection (PMI) S119
mediated apoptosis: in the elimination of gene-transduced hepatocytes (PMI) S113
fat absorption: modulation of intestinal immune system by dietary fat intake: Relevance to Crohn's disease (Review Article) 1183
fatty acid, composition: effect of *H. pylori* infection on gastric mucosal phospholipid contents and 566
FDP aldolase *see* fructose 1,6-diphosphate aldolase
FK506 *see* tacrolimus hydrate
flow cytometry: analysis of cell proliferation kinetics during healing of duodenal ulcer 376
FOBT *see* faecal occult blood testing
foetal transcripts: expression of foetal IGF-II mRNA in adults and tumour growth 152
follicular dendritic cell: in the liver, imaging of 1146
food ingestion: effect on plasma hyaluronan in patients with 1218
foreign bodies: in the oesophagus (Images in Gastroenterology) 322
fructose 1,6-diphosphate aldolase: tumour necrosis after TAE for HCC detected by the use of 192
fulminant hepatic failure: detection of hepatitis C and E virus genomes in the sera of patients with 125

G cell: effect of octreotide acetate on the function of 220
gall-bladder
association between APBD and AMT of the 175
wall blood flow as determined by colour Doppler-guided spectral analysis 181
gallstone
disease: pathogenesis and treatment (ADW) S275
review of UDCA as a medicant (Review Article) 659
gastric
acid: secretion in rats infected with either *H. felis* or *H. heilmannii* 95
adaptation: to aspirin and *H. pylori* infection in humans (ADW) S193
antral vascular ectasia (Images in Gastroenterology) 435
cancer
prevalence differential north to south gradient in China 1050
differentiation on the basis of genetic alterations of histological subtypes of 305
epidemiology in relation to diet and *H. pylori* infection (ADW) S166
expression of urokinase-type plasminogen activator receptor and plasminogen activator inhibitor-1 in 936
hypo-echoic submucosal nodules: A sign of EBV-associated early gastric cancer. Corrig. 1080 585
role of *Helicobacter pylori* in (Review) 21
in reconstructed gastric tube after operation for oesophageal carcinoma (Case Report) 311
damage: NSAID that cause relatively little (ADW) S190
electrical stimulation, role in gastroparesis (ADW) S232
erosions: attenuated by camostat mesilate after thermal injury in rats 104
mucosa

cystic neoplasms (Hepatobiliary and Pancreatic Images) 1171, 1175
HCC metastasis in (Case Report) 467
cytokines as predictors of severity in acute (Editorial) 1177
tropical calcific (ADW) S284
para-umbilical vein: altered intrahepatic pathway in portal hypertension 691
parenchyma, growth and differentiation of hepatocytes regulated by interaction between non-parenchymal cells and (PMI) S83
parenteral nutrition: effect on minimal luminal nutrition on mucosal cellularity and immunity of the gut 1015
parietal cell: effect of octreotide acetate on the function of 220
pathogenesis
and treatment of gallstone disease (ADW) S275
of chronic gastric ulcer (ADW) S178
pathogenicity: and replicative efficiency of hepatitis B virus e-minus precore variant (ADW) S304
pathology: prognostic significance of pathological and biological factors in HCC (Review Article) 666
PBC *see* primary biliary cirrhosis
PCI *see* pneumatosis cystoides intestinalis
PEG *see* percutaneous endoscopic gastrostomy
PEI *see* percutaneous ethanol injection
peptic ulcer
bleeding: role for surgical intervention (ADW) S227
factors influencing *H. pylori* eradication with 2 week combination therapy of lansoprazole and amoxycillin 725
role of *Helicobacter pylori* in (Review Article) 21
percutaneous endoscopic gastrostomy: feeding in AIDS 371
percutaneous ethanol injection: treatment of HCC 41
peripheral blood mononuclear cell: non-specificity of α-fetoprotein mRNA in peripheral blood in detecting early spread of HCC in black Africans 885
peritonitis
effect of obstructive jaundice on neutrophil chemotactic activity in 405
spontaneous bacterial: in fulminant hepatic failure (Case Report) 109
permeability, test: to detect disease of the upper digestive tract 1002
PGE_1 *see* prostaglandin E_1
phenobarbital: dose-dependent biphasic effects on growth and differentiation of primary culture rat hepatocytes (PMI) S78
phenothiazine: effect on biliary excretion of organic anions of colchicine and 427
phospholipids: effect of *H. pylori* infection on gastric mucosal phospholipid contents and their fatty acid composition 566
pigmentation: of the duodenum 13
placebo: symptom relief with amitriptyline in IBS 738
plasminogen activator inhibitor-1: in gastric cancer, expression of urokinase-type plasminogen activator receptor and 936
PMN-E *see* polymorphonuclear leucocyte elastase
pneumatosis cystoides intestinalis: associated with post-surgical bowel anastomosis (Case Report) 534
point mutation assay: association of mutations in the core promoter and precore region of hepatitis virus with fulminant and severe hepatitis 1125
polyamine
and cytoskeletal protein in intestinal epithelial cell migration (ADW) S257
role in EGF-stimulated rabbit oesophageal mucosal growth (ADW) S149
polymorphonuclear leucocyte elastase: indicator for the occurrence of multiple organ failures in acute pancreatitis 1274
porcine liver: differentiation and colonial growth of epithelial cells from (PMI) S62
porphyrins: liver metabolism of (Review Article) 324
portal hypertension
altered intrahepatic pathway of para-umbilical vein 691
gastropathy (Review Article) 865
haemodynamic effects of chronic octreotide and tetrandrine in 266
vascular responses to the L-type calcium channel activator, Bay K 8644, in rats with cirrhosis 1254
portal hypertensive gastropathy
effects of TIPS on 1061
gastric mucosal blood flow and hepatic perfusion index in patients with 921
therapeutic options for bleeding (Editorial) 977
portal vein branch: evidence for decreased number in secondary biliary cirrhosis possibly related to congenital hepatic fibrosis (Case Report) 720
portal vein obstruction: extrahepatic (Hepatobiliary and Pancreatic Images) 1077, 1078
precore mutant
fibrosing cholestatic hepatitis after living-related-donor renal transplantation (Case Report) 1133
inhibitory effects of hepatitis C on progression of 131
replicative efficiency and pathogenicity of hepatitis B virus e-minus precore variant (ADW) S304
pregnancy: gastro-oesophageal reflux in 1020
primary biliary cirrhosis
identification of a prognostic marker in patients with 257
immunological features of patients with 897
progastrin: derived peptides expressed in a panel of GI carcinoma cell lines 208
prognosis: significance of pathological and biological factors in HCC (Review Article) 666
prognostic marker
in patients with PBC 257
Ki-67 expression in HCC as 273
proguanylin: coexistence with somatostatin in the gastrointestinal tract 1225
progenitor cell: growth and maturation of small hepatocytes (PMI) S70
prokinetic agents: *H. pylori* colonization in patients with

functional dyspepsia does not influence symptomatic response to 500
proliferating cell nuclear antigen; comparative study with NOR and EGF receptor staining in colon tumours 794
Propionibacterium acnes; effect of FK506 on the activation state of hepatic macrophages in rats treated with (PMI) S51
prostaglandin
E_1, effect on TNF-α status and hepatic D-galactosamine-induced apoptosis in rats of 197
E-type receptor subtypes and gastroduodenal bicarbonate secretion in rats (ADW) S221
synthesis not inhibited by sulindac in rat 1195
prothrombin-mRNA; non-specificity of α-fetoprotein mRNA in peripheral blood in detecting early spread of HCC in black Africans 885
pseudocysts; pancreatic, in the liver (Hepatobiliary and Pancreatic Images) 433, 436

quality of life; in AIDS patients improved by PEG feeding 371

radiotherapy
selective internal; new treatment for HCC (ADW) S311
treatment of duodenal bleeding due to HCC invasion (Case Report) 1143
RAIR *see* recto-anal inhibitory reflex
rat liver; induction of production of CINC by non-parenchymal cells 696
recto-anal inhibitory reflex; abnormal response in diabetics suggests intrinsic neuroenteropathy 1107
reflux oesophagitis
Los Angeles classification 927
relationship between severity and symptoms in elderly patients in Japan 927
reflux, gastro-oesophageal
effect of variceal eradication by endoscopic sclerotherapy on 1033
in pregnancy 1020
regulcalcin; role in regenerating rat liver (PMI) S106
renal failure; HCV in chronic haemodialysis patients with 62
reperfusion, injury; role of endogenous nitric oxide in 997
respiratory disease; and gastro-oesophageal reflux (ADW) S237
retinoblastoma protein; effect of transient cAMP elevation on DNA synthesis in rat hepatocytes at G1 phase 651
ribavarin; and efficacy of IFNα on viraemia of HGV/GBV-C (Brief Communication) 1249

Salmonella; hepatitis (Review Article) 745
sclerosis, systemic; immunological features of patients with PBC overlapping with 897
sclerotherapy, endoscopic; oesophageal motility and gastro-oesophageal reflux: Effect of variceal eradication by 1033
screening; effectiveness and cost-effectiveness of colorectal cancer (ADW) S252
senescence marker protein; hepatic and renal expression and its biological significance (PMI) S124
sequence analysis; of hepatitis B virus, evidence of transmission to spouses 1138
seroprevalence; hepatitis G virus in multitransfused thalassaemics from India 902
serotonin; role in gastric mucosal damage induced by compound 48/80 1099
signal transduction
during liver regeneration (PMI) S93
prostaglandin E-type receptor subtypes and gastroduodenal bicarbonate secretion in rats (ADW) S221
single photon emission computed tomography; cerebral changes in hepatic encephalopathy (Review Article) 752
sinusoidal endothelial cells; mechanism of regeneration (PMI) S1
slow wave; improved electrogastrographic system in measuring myoelectrical parameters 1027
small intestine; protein-losing gastroenteropathy complicating haemangioma of (Case Report) 387
Solt-Farber protocol; gene expression in hepatomas (PMI) S132
somatostatin; coexistence with proguanylin in the gastrointestinal tract 1225
spasmolytic polypeptide; protects against aspirin-induced gastric injury 363
SPECT *see* single photon emission computed tomography
splenectomy; reduced expression of thrombopoietin is involved in thrombocytopenia in human and rat liver cirrhosis 907
steatonecrosis; in the upper abdomen following TAE for HCC (Case Report) 471
stem-like cell; differentiation and colonial growth of epithelial cells derived from abattoir adult porcine livers (PMI) S62
stents, biliary
for malignant strictures, benign strictures and stones (Editorial) 553
management of common bile duct stones 594
stomach lesion; hyperplastic gastric polyps (Images in Gastroenterology) 1075
stones
biliary, stents for malignant and benign strictures and (Editorial) 553
impacted; in ampulla of Vater (Images in Gastroenterology) 657
strictures, biliary stents for malignant and benign (Editorial) 553
subtype differences; of HBV in HCC 1237
sucralfate; granules in suspension and their effects on endoscopic variceal scleropathy induced ulcer 225
sucrose; permeability to detect disease of the upper digestive tract 1002
sulindac; inhibits colorectal tumour growth, but not prostaglandin synthesis 1195
sulphasalazine; three paediatric cases of primary sclerosing cholangitis treated with (Case Report) 825
surgery; role for bleeding peptic ulcer (ADW) S227
survival; following TIPS for variceal haemorrhage 163
symptoms; reflux oesophagitis in elderly patients in Japan 927

T cell; mediated immune mechanisms (Review) 14
T lymphocyte clone; for HCC 29
tacrolimus hydrate
effect on the activation state of hepatic macrophages in *Propionibacterium acnes*-treated rats (PMI) S51

promotes liver regeneration by suppressing natural killer cell activity 703
TAE *see* transcatheter arterial embolization
tamoxifen; inhibits colorectal cancer metastases in liver 521
tetrandrine; haemodynamic effects in portal hypertension of 266
TGF *see* transforming growth factor
thalassaemia
hepatitis G virus in multitransfused patients from India 902
HGV infection in multiply infused children with 253
therapy
endoscopic management of benign biliary strictures (Review Article) 116
for bleeding portal hypertensive gastropathy (Editorial) 977
identification of potential tumour-specific antigen in HCC as a target during 137
thermal injury; attenuation of gastric erosions and microcirculatory disturbances by a protease inhibitor after 104
thrombocytopenia; reduced expression of thrombopoietin in human and rat liver cirrhosis 907
thrombopoietin; reduced expression in thrombocytopenia in human and rat liver cirrhosis 907
TIPS *see* transjugular intrahepatic portosystemic shunt
TNFα *see* tumour necrosis factor α
tonometry; assessment of autonomic nervous activity during gastrointestinal endoscopy: Analysis of blood pressure variability by 816
transcatheter arterial embolization
FDP aldolase used to detect tumour necrosis after 192
long-term survivor of jejunal leiomyosarcoma with liver metastasis (Case Report) 620
steatonecrosis in the upper abdomen after (Case Report) 471
treatment of HCC 41
transcripts, truncated; of *TSG101* in gastrointestinal cancers 1111
transfection; of primary hepatocytes and hepatocyte-derived cell lines (Special Article) 855
transforming growth factor, β1
concentrations in patients with chronic viral hepatitis 680
mRNA expression by hepatocytes during involution of hyperplastic rat liver induced by HGF 786
transjugular intrahepatic portosystemic shunt
effect on portal hypertensive gastropathy 1061
mortality and rebleeding following 163
transmission
hepatitis B virus to spouses: evidence of 1138
hepatitis C infection in patients undergoing maintenance haemodialysis 604
transnasal; comparison with transoral oesophagogastroduodenoscopy 579
transplant, fibrosing cholestatic hepatitis after living-related-donor renal (Case Report) 1133
triple therapy; with low-dose clarithromycin for the eradication of *H. pylori* 288
tropical calcific pancreatitis; (ADW) S284
tumour necrosis factor α
effect of PGE_1 in rats on 197
induced IL-8 production in human colon epithelial cells inhibited by bile acids 1212
signal transduction during liver regeneration (PMI) S93
tumour suppressor gene; in gastrointestinal cancers 1111
Turcot's syndrome; inherited APC mutation in the first reported Australian case of (Case Report) 401

UDCA *see* ursodeoxycholic acid
UGT *see* uridine diphosphate glucuronosyltransferase
ulcer; analysis of factors determining healing of 225
see also duodenal ulcer
ulcer, gastric
effect of clarithromycin, omeprazole and leminoprazole on healing in *H. pylori*-infected rats (ADW) S185
mouse model of gastric infection with *H. pylori* in pathogenesis of (ADW) S178
ulcer healing
follow up after successful eradication of *H. pylori*, symptoms and reinfection 555
tiaprofenic acid inhibits mucosal prostaglandin E_2 synthesis without delaying 571
ulcer, peptic; usefulness of urea breath test for detection of *H. pylori* infection in fasting patients 1039
ulcer, rectal; occult rectal prolapse and (Images in Gastroenterology) 539
ulcerative colitis
atypical, cytoplasmic and perinuclear anti-neutrophil cytoplasmic antibodies in patients with IBD 950
mucosal NO levels determined *in situ* in 391
quantitative immunohistochemical evaluation of inflammatory cells and affected and unaffected sites of IBD 801
significance of pANCA in IBD (Editorial) 863
ultrasonography
case of well-differentiated minute HCC with extrahepatic metastasis 892
intraductal; diagnosis of proximal invasion in extrahepatic bile duct cancer 715
new approach in diagnosis of bile duct disease (ADW) S278
University of Wisconsin solution; efficacy of hypothermic perfusion using 781
urea breath test
detection of *H. pylori* infection based on the kinetics of Δ-$^{13}CO_2$ using laser spectroscopy 732
follow up after successful eradication of *H. pylori*, symptoms and reinfection 555
usefulness for detection of *H. pylori* infection in fasting patients 1039
uridine diphosphate glucuronosyltransferase; regulation of 88
urokinase-type plasminogen activator receptor; in gastric cancer, expression of plasminogen activator inhibitor-1 936
ursodeoxycholic acid
historical review (Review Article) 659
treatment of type 1 autoimmune hepatitis (Editorial) 457
treatment of type 1 autoimmune hepatitis 490
three paediatric cases of primary sclerosing cholangitis treated with (Case Report) 825

vagus; central and peripheral mechanisms in gastric protection against ethanol injury (ADW) S214
variceal haemorrhage; update on treatment (ADW) S161

varices
HCC presenting with bleeding 170
mortality and rebleeding following TIPS for haemorrhage 163
oesophagogastric; effects of TIPS on portal hypertensive gastropathy 1061
vascular plexus, hypertrophic peribiliary; evidence for decreased number in secondary biliary cirrhosis possibly related to congenital hepatic fibrosis (Case Report) 720
vasoconstrictor; vascular responses to the L-type calcium channel activator, Bay K 8644, in rats with cirrhosis 1254
vasopressin; microvascular interactions in rat jejunum between nitric oxide and (ADW) S262
venous shunt, portal–hepatic; associated with a pelvic leiomyoma (Case Report) 158
verocytoxin; *E. coli* infection in Hong Kong (ADW) S289
vesicle transformation; association with cholesterol crystallization-effector proteins in supersaturated bile 1161
viral and non-viral vectors; gene therapy: Recent advances and applications in gastroenterology and hepatology (ADW) S143

water; survival of *H. pylori* in 1096
watermelon stomach (Images in Gastroenterology) 435
wound repair; histamine H_2 receptor antagonist FRG-8813 prevents delay of (ADW) S209
